

Greywater

GO GREEN

save our earth

Prepared by:
Brian Noel
Sandy Shamblin
Emily Stokes

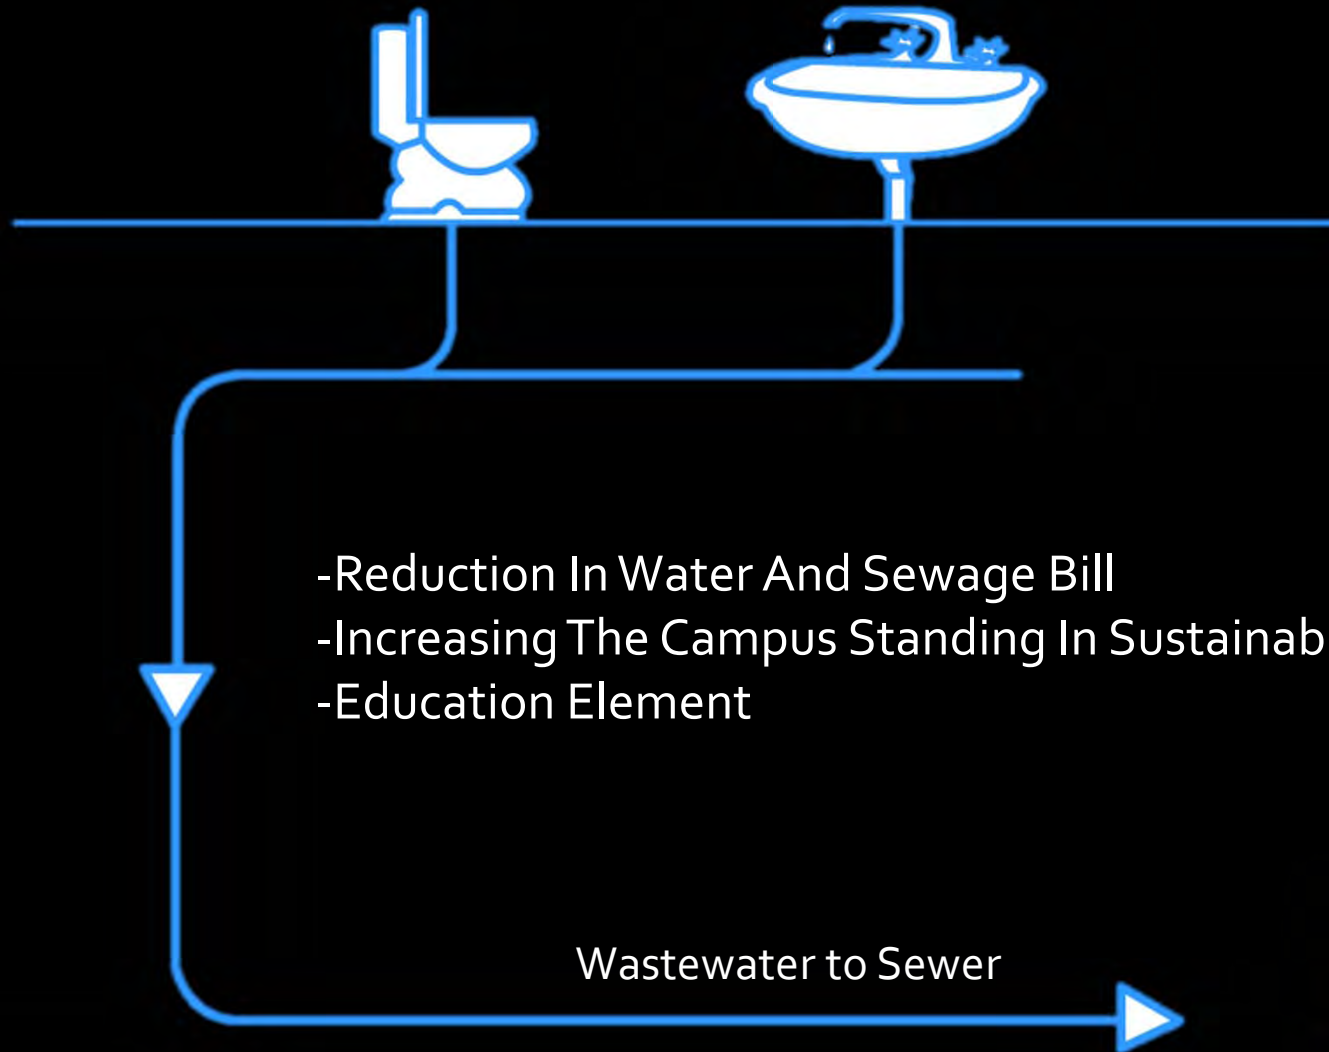

What is Grey Water?

	Potable/Non-Potable	Sources
White Water	Potable	Drinking fountains, faucets, garden hoses. Any municipal water line
Light Grey Water	Non-Potable	Showers, tubs and sinks (washing hands)
Dark Grey Water	Non-Potable	Washing machines, sinks (for cleaning dishes, other uses)
Black Water	Non-Potable	Toilets, any input of fecal matter or urine creates black water

Executive Summary

Executive Summary

UW Tacoma – Center for Urban Waters

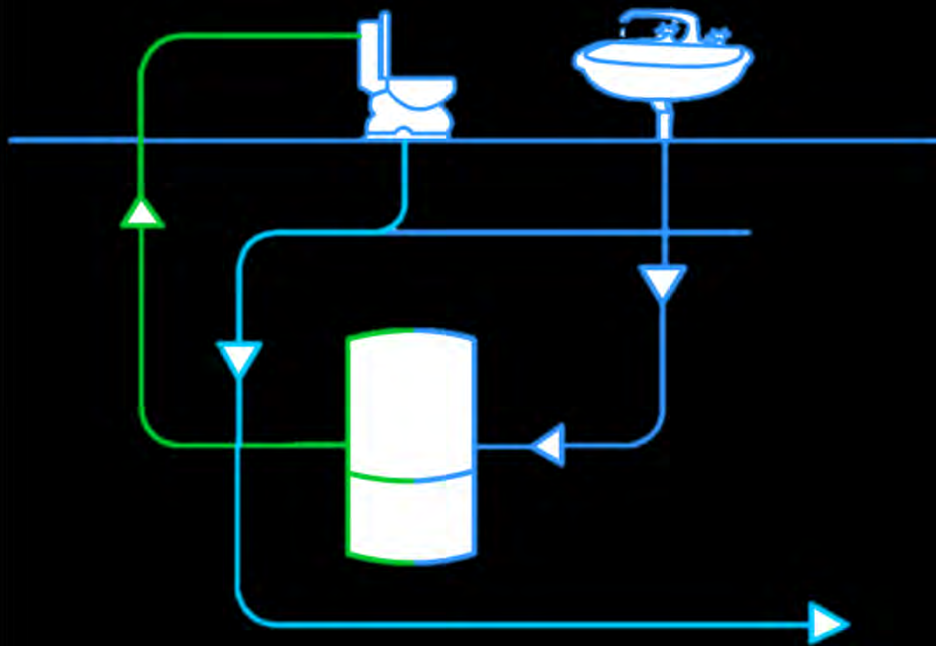

We're Saving Water

Water in the toilets is rainwater captured from the roof and reject water from the lab's pure water system. The color you see is normal and is helping us save over 400,000 gallons of water per year.

WACs

Washington Administrative Code (WAC)

Regulations of executive branch agencies are issued by authority of statutes. Like legislation and the Constitution, regulations of the WAC as they existed each year since 2004 are available in the [WAC archive](#).

There are several ways to find WACs. Please see the links and information below:

[Search WACs](#)

If you know the full or partial citation, type it in the field below or choose from the generated list and click the Go button.
