ENCHANTED EDIBLES

Alayna Nieman
Alexis Ressler
What is Edible Landscaping?

• Alternative to ornamental plants

• Produces a variety of healthy produce

• Food can be grown naturally

• Significance to Western
What Will This Look Like?

• Randy Godfrey and other gardeners
  • Site selection, maintenance concerns, and plant options

• Paul Mueller – WWU Environmental Health and Safety
  • Clearly defined area, placard with liability, indication of species

• Janelle Gavin – landscape designer
How Will This Work?

- Available for all!
- Low-maintenance, drought-tolerant perennials
- Each species will have a small placard with a photo and description
- Initial volunteer planting event

Loyola University Chicago
Who Will Maintain the Space?

- Club
- Course(s)
- Outback
  - Unpaid internship position
  - Coordinate between gardeners, Outback, and volunteers
  - Student interest in the project
- Outback concerns
- Looking to the future
