

Buildings

Stop	Keep Doing	Start
arntzen heating is out of control hot! can't turn it down in offices	finding projects. I'm proud of all the LEED certified and GEF plaques I see on campus	LEED gold or platinum equivalent
installing impermeable pavements	adding more water bottle stations in buildings	make carver renovation LEED gold or platinum
arntzen smoking issues! smoke gets pulled into offices	hydration stations are great	carver really needs to be renovated. a perfect place to use green designs
paper towels	hydration stations are great	living building challenge (USGBC standard)
stop using as many paper towels	I love the design of aw, so much light	make more buildings LEED certified/more housing options for on campus living
	roof gardens	set policy around new buildings needing to meet LEED standards. green roofs, sustainable heart, geothermal, ductless, airsource heat pumps
	beautiful architecture	make residence halls green buildings with low water flow systems in bathroom and other things
	supporting the outback	can we obtain visible, real time measurements for power and water use in our buildings
	miller remodel	can we obtain visible, real time measurements for power and water use in our buildings
	the rec center, great!	library needs more outlets
		more outlets in miller
		accessible charging outlets
		more outlets please especially in miller
		add more electrical outlets
		more water bottle stations
		more water bottle refill stations especially in the pac
		more water bottle refill stations especially in the pac
		hydration station, pesticide alternatives
		more water bottle refill stations
		hydration stations
		hydration stations
		water bottle stations
		natural lighting and heating like academic west

Buildings

Stop	Keep Doing	Start
		occupancy sensors tied to lighting and HVAC controls
		take better advantage of natural lighting. comm building doesn't need lights on during day on first floor
		make natural light lights in basement classes
		natural light in buildings, reduce lights
		natural light in buildings, reduce lights
		solar in the outback
		more solar panels
		support solar window projects
		more solar powered buildings
		need more natural light, windows, less lights
		long term consideration of living biological water treatment systems
		retrofit existing buildings
		start materials during renovation projects
		integrate biomimicry into landscapes and structural designs
		more use of the canada house
		burn down engineering building. build anew
		responsible sourcing of building materials
		floors in dance studios and pillars in dance studios are dangerous, please think about this
		floors in dance studios and pillars in dance studios are dangerous, please think about this
		theatre and dance is one department, why are our buildings so far apart?
		geothermal heat pumps for all new construction. allegheny college, kelly burton sustainability coordinator will love info north village II residence hall
		solar powered chairlift from waterfront to campus
		switch out those vapor lamps that always break down (lights on paths)

Buildings

Stop	Keep Doing	Start
		remove the subway stench from arntzen
		maybe start experimenting in cheap, modular, mass produced buildings to learn how to bring the price point down for housing? use the learning and class experience to design cheaper, smarter housing options for the community. after all what'd be collier than living in a viking house?
		the theatre pac has two rehearsal spaces for over 200 students! i've had to rehearse at 2am for lack of space. we need more space for this great program
		lower the water pressure for the showers in beta and gamma
		weather stripping for exterior doors of higginson
		compost bins for bathrooms
		install meters to monitor water use in all buildings
		biodegenerators connected to all the toilets to generate building power, they do it at ubc for reference
		more water saving toilets on campus
		better showers in the dorms that don't leak
		need more dyson hand dryers

Stop	Keep Doing	Start
classes from profs (in my experience tenured) who are convinced we're stupid or only are about their subject (bio dept.)	sustainability course/degree	chem, physics need OL versions! sometimes going to class isn't the best way of learning these specific topics
no more 310 as part of SPED programs stop being afraid of alienating conservative donors and teach more radical economics and re distributive justice. tax unsustainable activity and redistribute. tax carbon at least! divest	promote diversity on campus promotion of degrees	make english 101 a class easier to get out of/not take sustainability at western class (community forum) environmental justice, agroecology
unnecessarily low credit classes under the CPFA	environmental justice minor	boring teachers make for boring learning. discourage bad teaching whenever possible
having grad students teach foundational classes such as math 114 and 101	campus sustainability project-based class! great ideas come from that	more student autonomy. shared governance
letting Banner control curriculum	sustainability minor	more student autonomy. shared governance
the tokenization of minority groups in history or studies classes	sustainability minor	less GUR's. make majors more accesible
allowing problematic professors to gain tenureship	student-led teaching of faculty. example: my friend maria jose teaches faculty spanish language twice weekly. WELP through extended ed	the splintered approach to experiential learning. re. every college needs options!
having food waste	keep the outback strong and green roofs on campus!	annotate the campus with explanations of all the good sustainability stuff happening
restrictions for minors!	encouraging all paths of study	projects for wind/renewable energy
requiring us to print pages to bring to class when we can look at them online	keep The Planet magazine strong or expanded	allow for more dialogue in CBE questioning the associations between capitalism and over consumption/waste. not a separate major, all CBE students.
requiring us to print pages to bring to class when we can look at them online	having events like this one, and incorporating sustainability into every major	place based experimental pedagogy
requiring printed essays/syllabi	the green roof on top of miller. keep doing that to buildings on campus	more graduate level environmental education courses to choose from
giving grades. make us really learn	the green roof on top of miller. keep doing that to buildings on campus. students would probably help maintain/stop	integration of climate change into curriculum, like new school in nyc
refill mechanical pencils with lead	giving athletes priority registration	better engineer teachers. too many new people who haven't taught the course
	offering classes in ES and ESCI from knowleadgable, passionate faculty	fusing creativity, inventing into classes. makes learning more meaningful and useful
	offering sustainable literacy classes! education is key	teach alternative, equity promoting, local based, naute nurturing, economic systems and principles
	I loved my sustainability lit class, keep doing it.	highlighting international work in energy etc. study abroad (germany, denmark)
	keep (expand) sustainability literacy sequence	more classes about diversity taught by representatives of said group
	hiring awesome professors! had a positive experience thus far with good educators	more dashboards for buildings
	incentive to give back to community through service learning	offer more courses in evening to alleviate parking and reduce class sizes. allow students to not fall behind a quarter

Curriculum

Stop	Keep Doing	Start
	building energy program	establish required or suggested or encouraged advising before registration. I see many students being at WWU 2-3 quarters longer than necessary because they don't have a focus or are taking similar courses but not completing requirements. this would save students money
	sustainability institute and workshops	more customizable program (more emphasis on interesting majors/paths)
	environmental justice	extra support for faculty research and training on sustainability
		make study abroad a requirement for all language programs/majors. cultural immersion is so important
		ecopsychology classes (possible minor and major?)
		require at least 3 credits about sustainability for all students
		interdisciplinary approach to food studies/food systems. i.e farming, ecology, anthropology, land management, social justice. minor?
		looking at integrating LEAD into the service learning department
		ask LEAD to work on more sustainable campus focused projects not just invasive species
		faculty put pressure on administration to divest
		faculty put pressure on administration to divest
		k-12 teachers should have a required class on teaching k-12 sustainability
		sustainability ethic among faculty. took econ 206 and environmental ethics was cut-seen as fluff
		sustainability ethic among faculty. took econ 206 and environmental ethics was cut-seen as fluff
		requiring credits in sustainability
		a website with all sustainability classes
		each department could have faculty workshops on how to integrate sustainability into their particular curriculum. look at best practices, model programs around the country
		having less expensive P.E classes
		studying net benefits of climate change
		integrating more digital text book into classes

Curriculum

Stop	Keep Doing	Start
		when climate change is discussed, bring up the injustice of who caused it vs who faces the impacts
		advertising the sustainability major/minor to freshmen
		make the environmental social justice major happen
		more online textbooks
		create an optional first year program where faculty/advisors focus on helping students decide what they want to do before entering college: for high schoolers
		living lab partnerships with facilities
		shift towards more online resources/libraries. especially handouts
		hsp art minor...more minors
		alot more field work/campus activities
		semester system
		find ways to perform research in conjunction with campus operatives with purpose, as opposed to accidental
		collect unused notebook paper from comp books
		have a class required as part of every major that shows how the discipline interfaces with ecology/sustainability/climate change
		a way to get schools in bellingham involved in sustainability/nature cross disciplinary project teams tied to senior projects or course materials on sustainability, i.e could we tackle an aspect of sustainability building a campus electric vehicle to learn about sustainability issues
		more class offerings (undergrad and grad) in the evening. I'm evening grad students and sometimes I feel isolated
		sustainability and golabl education K-12?
		need dedicated faculty for business and sustainability
		invest in water collection systems
		encourage departments to open up coursework (upper division) in their major/minor to allow for sudy abroad, international internships, research
		require dance and music in theatre majors. have the 3 work together!

Stop	Keep Doing	Start
		hire a full time/part time non student coordinator for the Outback Farm outdoor educational learning program so students can engage hands on in sustainable action
		more transfer student stuff, like a viking launch bur for transfers
		social justice and environmental justice being in all huxley classes
		knowing more about saving energy
		teach treadmill of production theory. alternatives to capitalism climate justice
		encourage more responsive interdisciplinary programs. our age requires extraordinary adaptability and sharing info
		incorporate green energy into a GUR
		promote seth (with a raise) and provide more funding for support staff for office of sustainability. we need more research into best practices elsewhere
		a course for incoming freshmen about the bellingham/whatcom area, it's ecosystems, its environmental assets, and how our actions as students/residents affect these
		using the outback with more efficiency and effectiveness
		using the outback with more efficiency and effectiveness
		classes that involve learning about sustainability on campus and directly to whatcom county
		a broader and more diverse definition of sustainability with focus on social and economic dimensions
		more incentives (\$ and not \$) to support faculty initiatives
		more incentives (\$ and not \$) to support faculty initiatives
		more queer studies classes
		more classes that involve campus interaction like seth's planning class
		the creation of new sustainable classes
		grow the sustainability majors and minors
		more availability for the cool fairhaven classes like permaculture, wild foods class, etc.

Curriculum

Stop	Keep Doing	Start
		more availability for the cool fairhaven classes like permaculture, wild foods class, etc.
		co living
		expand green dorms with energy monitoring
		more interdisciplinary! remove barriers to students taking relevant courses wherever they occur on campus
		seminars in sustainability
		more PR
		sustainability topic in MBA curriculum
		faculty: ask president shepard to take a stronger stand in public regarding the adverse impacts of the proposed coal port on WWU and the world. sustainability will not happen as long as the economic system rewards exploiting nature and promotes consumption, yeilding ever-greater wealth for the 1%. must disincentivise (tax) harmful behavior and redistribute revenue
		integrate social justice to general requirements

Stop	Keep Doing	Start	Misc
Make rec center fee opt-in/out	Keep The Planet	provide more paid internships and opportunities to support sustainability on campus!	Keep culture shock
Provide more paid internships and opportunities to support sustainability on campus	Fairhaven free press	make rec center fee opt-in/out	Bruce Shepherd is da bomb
giving gpa so much weight in admission process	Hiring great diversity leaders like Rios, Pratt, Carbajal	reduce the GEF fee (keep it just reduce it)	
making it so difficult to park on/visit campus	The Planet	new BT vacuums	
the stigma surrounding diversity. make it more of encompassing words. I don't know how though...	More graduate level courses in SPED	western sustainability brand needs to find a way for all members of our community to find a sweet spot which they can identify with	
raising tuition. urge legislature to adopt free tuition paid for with small income tax or tax on first 10 years after graduation	Student publications Klipsun/Planet/etc	provide incentives to live green, if you bus instead of take your car, cheaper for you	
stop scheduling faculty events on jewish high holy days	Student publications	make it cheaper to be green (maybe subsidize purchases)	
stop ignoring ethnicities	Extreme clarity in the breakdown of tuition. Lessen donation to alumni group. Keep tuition low.	encourage mandatory advising before registration. students spend 1-3 extra quarters in tuition without direction and support	
	Respectful discourse between students/staff/faculty and inclusion of people and ideas	more e-books. free e-books?	
	Recognizing international student achievements via international ambassadors and social media, to sustain international student retention		
	Scholarships for low income/disadvantaged kids. Programs to help kids in school.	more needs based scholarships for tuition and books, not just based on grades	
	Detailed metrics	some of the student tech fee go towards printing! printing is too much.	
	Coordinated campus-wide teach-ins	encouraging alternative transportation as a means to improve health of students and reduce costs	
	Making bikes more affordable for students or communal bikes	more targeted grants and fellowship	
	Inclusive employment efforts	e-books on course reserve	
	Benefits for non-married partners...we have moved backwards on this	more clarity on what/how our tuition dollars are being spent. less money for the president!	
	Making more majors available to people who work full-time	give low income students discount on food/school in general with scholarships	
	1st generation college scholarships; better yet, free tuition for all; everyone wins	have more scholarships for students working towards sustainability on campus	
	Representation and scholarships for students who have young children	affordability of food on campus	
	continue making LGBT events available to everyone.	invite guest teachers	
		encourage people to start ethnic groups	
		more diversity events and more people to come to the event. encourage international students and diversity	
		more diverse faculty	
		recruiting strong female faculty in STEM fields. also thank steph abegg for being awesome	

Stop	Keep Doing	Start	Misc
		more available peer to peer counseling for LGBT students	
		involve diversity in class curriculum	
		I want to go to ethnic club dinners, but I feel they're not inclusive	
		how can we promote and recruit more women in science and technology teaching positions	
		gender neutral bathrooms	
		requiring more diversity classes	
		gender neutral bathrooms (in addition to binary gender)	
		gender neutral bathrooms (in addition to binary gender)	
		more support for non binary language, biological sex not an important fact for application demographic	
		bring equity to the forefront as essential to sustainability. 1% of people controlling 50% of wealth is one of the greatest impediments to sustainability	
		make all bathrooms on campus and in residence halls gender neutral	
		make all bathrooms on campus and in residence halls gender neutral	
		make all bathrooms on campus and in residence halls gender neutral	
		more females in STEM fields!	
		encourage women in science! incentive?	
		at Technonic, a young woman talked about geek culture from a female view. she had quit comp sci of often two questions of being the only woman. how can we promote/support women in tech?	
		offering courses for people in bellingham to learn skills (job skills)	
		start taxing the president's mansion and his 300k annual salary	
		mine collective intelligences by modeling inclusive teaching and listening	
		more balanced taxation models to provide more balanced revenue for higher ed	
		make sure all departments have faculty of color	
		the esc needs an upgrade: "people of color" could progress to ALL people of color	
		easy access basic conversational classes for talking to exchange students with a large presence on campus	
		more classes on diversity	

Stop	Keep Doing	Start	Misc
		scholarship opportunities for multi-race students	
		scholarship opportunities for multi-race students	
		fed people. free	
		scholarships for underrepresented students studying sustainability	
		focus on identifying unrecognized internal bias	
		robust work study student employment to enable less financially advantaged	
		have professors be trained to facilitate conversations so that males don't talk all the time and hog the conversation	
		acknowledge that international students contribute to diversity and have different needs than US students of color	
		outreach in younger students in high school to engage them in the work we're doing	
		more gender neutral bathrooms	
		focus on diverse backgrounds of diversity such as region, cities, or different culture for hiring faculty	
		tracking LGBT metrics: retention, promotion, etc.	
		focus on jobs- green color workforce	
		more student positions in diversity outreach groups. and more permanent staff maybe?	
		I understand there is an ESU, however, only people of "color" seem to attend the clubs. there needs to be something for everyone to feel welcome. more marketing that everyone can attend ESU or create a new club for all	
		can we please have more queer visibility/activities/support on campus? the QRC is so small	
		diversity training for faculty	
		lowered tuition	
		scholarships for minorities	
		offering more night courses to allow non traditional age and single moms more access	
		scholarship for minority students/ under represented groups studying sustainability issues (social/ enviro. justice, ecology, sustainable business, etc.)	
		people should know more about minority groups. problems need to be talked about	
		actually use student tracking to find and better support minority and first generation students explicitly	
		spawn multi cultural group. people interested in representing the fact that multiple ethnicities and cultures are represented on campus	

Stop	Keep Doing	Start	Misc
		better track students who face unique challenge to know the extent to which we are helping them to succeed (first generation, minorities, pell grant, disabled)	
		more international meetings, maybe seminars	
		more overt support for diversity of faculty and student perspectives	
		more women teaching science, design, math, engineering, etc. scholarships for women entering these studies	
		more opportunities to bring different people together	
		we need more diverse faculty	
		we need more diverse faculty	
		we need more diverse faculty	
		better advertising for diversity events. broader, outward	
		vets/active duty go to school for free	
		encourage more female and diverse ethnicity professors providing for serious, secular meditation spaces that encourage students to connect with this fundamental humanness together will help with compassion and love for all. literally everyone can benefit from focused meditation and this will help us	
		welcome people from different ethnicities	

Stop	Keep Doing	Start	Miscellaneous
get rid of the fountain, waste of energy!	continue purchasing energy efficient buses	add to the number of green toilets on campus	is solar power affordable? we supposedly have some but it's not that visible
having computers run all night in humanities	keep green toilets	motion sensor lights to save energy	
cranking the heat	green energy	eco friendly restroom/food items	
allowing people to disconnect motion sensors in offices	LED lighting	spend more money on energy conservation	
stop investing in fossil fuel companies	GEF is amazing	geothermal heat pumps. pay themselves off rapidly	
using control heating in buildings like the library	GEF	carbon off-sets for international travel- no carbon colonialism	
huge doors in environmental science building let out lots of heat in winter	energy institute	greenhouse gas accounting for each building	
supplying paper towels in bathrooms. hand dryers instead	buying energy credits	pursuing hot water heating options	
leaving lights on in closed buildings. install automated shut off lights	spreading awareness about climate change	purchase recs	
leaving computers on	GEF	more paper free hand drying	
investing in fossil fuels	SOC program and sweater days, education for faculty and staff	more paper free hand drying	
lighting the sky with the lights around comm lawn	GEF	more paper free hand drying	
driving	GEF	utilize natural light	
	motion sensors, setbacks for buildings (heating), during weekends, evenings, and holidays, energy retrofits, LED lights	divest	
	trying to invest greener	divest	
	trading out paper towels for high speed hand dryers	divest	
	encourage composting	light sensors- turn off lights!	
		less crime=less lights on at night	
		divest	
		divest, listen to your student body!	
		divest	

Stop	Keep Doing	Start	Miscellaneous
		divest	
		divest	
		revise allotment of school funding in smarter ways. ex: tax the WWU president for god sakes	
		shut down computers when idle at 8pm	
		shut down computers when idle at 8pm	
		divest	
		more solar panels/greener energy	
		on campus wind turbine, it gets windy here sometimes	
		turn down lights in residence halls. they don't need to all be on 24 hrs a day	
		more energy efficient vans for groups who want to travel (road/field trips)	
		turbine on water pipe downtown	
		biofuel burner demo	
		geothermal under arboretum	
		motion sensor lights	
		use more solar panels or student researched wind power	
		motion sensors with lights	
		more solar energy/ find newer sustainable source	
		more solar	
		revolving loan fund	
		steam to hot water	
		more solar powered energy	
		use wind turbines for power/ more renewable energy options	
		can we use anaerobic digestion to produce renewable power	
		biodigester	

Stop	Keep Doing	Start	Miscellaneous
		more motion sensor lights in buildings, turning off computers	
		associate costs with ideas and initiatives, i.e \$/kwh reduced \$/CO2 eliminated invest heavily in sustainable energy, it'll pay off financially in the long run, it's a way to lead by example, and it's an opportunity to teach sustainable energy for students. when it becomes profitable, use the profits towards reducing tuition/ subsidizing education	
		turn off lights at soccer fields, Harrington	
		have motion sensors on lights and hvac in classrooms and bathrooms to turn down or off utilities when not in use	
		use electric powered vehicles instead of gasoline powered for fleet vehicles on campus	
		motion sensor lighting!	
		discussing net positives of climate change	
		encouraging students to be more energy efficient in their purchases and daily habits	
		turn more building lights off at night	
		solar energy	
		require that any new purchase use less energy than what it replaced	
		green/living roof's on campus. insulation and food production and less CO2 and happy students	
		update all the buildings energy efficiency to miller hall's level	
		encourage all buildings to have motion sensored lights	
		get a pool cover at rec center	
		allow faculty and staff to easily opt for only half of the florescent bulbs in their office. I've pulled half mine out, but not everyone will stand on tables and figure out how	
		solar energy in dorms. not sure how, but save on computer energy in lab (sleep mode)	
		learn more about hemp (stay with me) focused super capacitors for energy storage. dr. milton U of Alberta 1000X cheaper than here	
		light audits to determine how long lights are left on, and then turn them off when they're not needed	
		more solar! also, make carver remodel net-zero building	
		using renewable energy	
		solar power	

Stop	Keep Doing	Start	Miscellaneous
		reduce amount of time that outdoor lights for athletic fields are on	
		solar! invest in green energy vs petrol.	
		more solar power	
		pool cover at rec center	
		solar energy/ wind energy	
		install motion detectors in more parts of library	
		incorporate solar energy! and teaching its development	
		make library more heat efficient in winter, cooling efficient in summer	
		energy reclaim methodology campus wide	
		solar panels on more building roofs	
		computers shut off when not used for an hour	
		turn off lights at harrington field when not being used (put in a switch users can activate?) I live above and see them on often with nobody there	
		motion sensor lights in buildings (residence halls)	
		motion sensor lights in buildings (residence halls)	
		green energy option from PSE (at least partially)	
		could we charge electric vehicles with solar panels	

Food

Stop	Keep Doing	Start
-serving as much beef in the dining halls	compostable wrappers for deli items	at subway maybe implement the servers asking if you want to reuse bags to be eco friendly
-serving beef in dining halls. stop supporting GMO prouce	vegetarians. veggies taste great. I love veggies	can we compost pre consumer waste food in anaerobic digesters to produce power
having desserts so available	education programs with cloud mountain farm	reusable silverware
rocket donuts are awful	western garden, mini farm	GMO labeling, post carbon footprint of meals
rocket donuts are awful	education about food and where it comes from	a pasta bar would be awesome!
having as many soda brands and have more local brands instead of coke/pepsi	buying local	fresher fruits and vegetables
irish soda bread	gluten free food options (more of them)	more vegetarian options! have more local companies on campus
purchasing any feed lot meat for humane and envital impact purposes- make it a policy	providing locally sourced food options. bham has great options	better advertising for travel mug discounts
a la cart dining halls	categorized bins	more gluten free options on campus
outrageous catering prices for china- make this reuse more accessible	educating students more	swole station
having so much soda and more access to healthy drinks	partnering with locals (avenue bread)	use locally sourced proteins, fruits and vegetables
no burgers some days	the omelet option. allows for more individual choice and fresh made	make it clear where you are purchasing animal products from and what their practices are
no need to raise food in inhumane ways. it causes expensive consequences. so if fast food is to social cost the economics favor happy animals	organics	not waste food
promoting local as a blanket good term without considering fair and local. see wwu students for farmworker justice	partnering with local businesses	non corporate co ops, locally owned and run
-serving meat entirely. fish is ok	local food sources	improving ethnic food. it tastes weird
-serving tyson meat	global eats/international promotion	selling more non-packaged/processed fruits
meatless mondays across dining halls	compostable silverware	more info about where individual foods come from
-serving meat specifically beef and pork because it is more inhumane and less sustainable	compost bins	more asian food with less oil and salt
respecting, encouraging, and selling sugar and carb based foods. stop inhumane food practices by puclicly divesting from them	compost every day in dining halls	compost more?
purchasing single-use plastics	having students compost their extra food	more education about healthy/local eating
there are still days without a vegan/veggie option in dining halls	viking food delivery	label when GMO's are used in food
too much soda/sugar drinks, reusable juice cups?	providing healthy food options	avocados please

Food

Stop	Keep Doing	Start
imported seafood	compost! and local food source	avocados please
throwing away food compost. food bank	trayless dining	more effort to throw less food away
	love the sign over trash bin to encourage compost instead	providing lower sugar options, i.e plain yogurt
	local sourcing of food	more local, organic, vegan, and vegetarian options
	compostable dishwear, cups, and plates	healthier/more options for on campus dining. there is not a whole lot of options for food. there are already to subways!
	support small businesses	more/healthier vegetarian options. GMO knowledge? labels?
	trayless, composting, tony's coffee, real food, organic apples, local food days!	get involved with the start of GMO labeling movement
	having people in bellingham use guest meals, and the week with local meals is wonderful	have the option to opt out for on campus dining when living in dorms
	great job, thanks	healthier dining hall options (other than salad and vegan sections)
	creating relationships with whatcom and skagit county farms- cloud mountain, etc.	think about flow with catering events. silverware, napkins at the end of table vs beginning where people forget, or middle? recycling/compost at the end or in the area. cups near water
	trayless dining halls	real food challenge
	assessing food waste at trash cans	more vegetables at dining hall breakfast
	good selection and good coffee (tony's)	lessen portion size to reduce food waste
	salad bar	more vegetarian options, also more array of vegetables
	the compostable forks and spoons given as an option. awesome!	have an only vegetarian line (shorter) to promote eating vegetarian
	trayless	start meatless Mondays
	weigh the weight in dining halls	more gluten free options at snack bars
	buying from the bagelry. they are the best	increase local food % in aramark contract
	compost in dining halls	GMO labeling
	tony's coffee	more local and organic
	keep up the organic food and vegan/vegetarian options	providing more diverse cookie options. chocolate, peanut, oatmeal, sugar, white chocolate macadamia nut
	clearly labeled gluten free section	incentivise (help facilitate getting up to regulation) a student cafe so students can take food sourcing/production into their own hands

Food

Stop	Keep Doing	Start
	recyclable spoons and forks and trays	more vegan options
	trayless in dining halls	adding more meat substitutes/vegetarian options
	providing sandwich bar, chicken sandwiches, and burgers	grass fed beef
	buy local in whatcom county	pass real food challenge
	keep doing food from different areas of the world	more local places like how you do avenue bread sandwiches
	encouraging recycling and composting in the dining halls	join a CSA or two- or twelve. western could have local food production instead of corporate health hormonal
		cheap/ accessible veggie boxes
		perform study of cost and impacts of using china vs compostable serviceware at catering events
		spend money on humanely-raised food, then local, then organic
		garden of fresh healthy foods to take care of together
		more vegan options. for people with dairy allergies/intolerances
		providing more types of bread for sandwich bar (hoagie bread)
		eating more local food
		having recycling/compost available during catering events. at catered events on campus offer plates, silverware, etc, as to not have garbage
		work with suppliers to reduce and change packaging (starbucks, subway)
		don't waste uneaten food at the end of the day
		more gluten free, vegetarian and vegan options. there's a lot of us in bellingham
		pair with familias unidas por la justicia to spread awareness of local farm worker rights and struggles! theres a student group on campus: wwu students for farmworker justice
		consider the benefits of ketogenic eating! subsidize food fats and veggies, discourage poor calorie, carbohydrate dense foods by moderate taxes on them. sin taxes use taxes to encourage local sustainable farms
		more gluten free options
		better signs for caterings compost
		better allergen labels. I've had three allergic reactions in two years at VC!

Food

Stop	Keep Doing	Start
		more vegan options
		composting in more places
		replace produce from out of country (at least) with more local produce
		cut the aramark domination. support small local community growth catering food providing
		less meat. more non meat protein!
		less meat. more non meat protein!
		salad greens from whatcom county and washington state
		bring back sushi
		lots of vegetarian options
		more farm to table in dining halls
		more farm to table in dining halls
		more farm to table in dining halls
		phase out aramark
		incorporate more free range chicken
		go with locally sourced for new food place in carver/other places as well
		buying local and organic produce, go vegan, fair trade!
		structure in place to make sure food supply is safe
		local organic sources
		vendor incubator?
		portion controlling to eliminate waste
		food from whatcom first
		as much local food as possible, support for local farmers, farming programs. etc

Food

Stop

Keep Doing

donate/not waste excess food

Grounds

Stop	Keep Doing	Start
using gas powered lawnmowers	making campus beautiful	more varied recycling across campus outside
lawnmowers to alternative fuel	eliminating phosphorous in fertilizer	more money for arboretum maintenance
backing up sounds of trucks outside all lecture halls	new buildings with living roofs	more pesticide free garden areas
ugly bare space near skybridge entrance to haggard hall	groundskeepers deserve a special award, campus is gorgeous!	labeling different plant species on campus
using windblowers as much	propogating plants	labeling different plant species on campus
stop the bricks	water bottle refill station	turn ornamental lawns into rain gardens or allow other native plants to grow, pull invasives
driving! stop leaving engine running	building gardens and green roofs	edible plants, fruits, nuts, berries
		fruit trees/edible plants around campus
		fruit trees/edible plants around campus
		landscaping to save water (rocks, gravel)
		edible landscapes, fruit trees, shrubs, wild foods
		edible landscapes, fruit trees, shrubs, wild foods
		allowing students to plant flowers/produce
		remove all invasive species from main campus so that people don't think they belong in our environment. contact LEAD for help
		cut the ivy and holly growing in the forests on campus...by work parties?
		native plant landscapes to replace some grass
		can we use electric vehicles for our grounds crew transportation and more electric leaf blowers and other technology
		advocating to the community that they follow WWU lead on discontinuing use of things like weed n feed and phosphorous
		edible plants in landscapes on campus
		coordinate with USDA extension office community to encourage better gardening models and shop information
		adopt best of class stormwater protection

Grounds

Stop	Keep Doing	Start
		stormwater and waste water management system for north campus before it gets to the bay
		bioswales on campus
		permeable surface parking
		reusing water. recycle waste water for use in toilets
		collect rainwater and reuse water on campus
		hydration station by fairhaven and aw as well as smate building
		native plant species, use of rain gardents and rain barrels to reduce stormwater runoff and provide for campus watering needs
		water bottle fill stations in every building
		more water bottle refill stations
		more water bottle refill stations
		even more water bottle stations
		collect rain water
		water fountains that recycle and reuse water that is not drank by user, so less water from main source of bham water
		somehow allow for greywater systems to be used
		more water bottle refill stations around campus
		sink water stops immediatly
		use greywater
		rain water collectors on buildings

Purchasing

Stop	Keep Doing	Start	Misc
Stop supporting the use of coal	Buying furniture made from recycled material	Purchase hand dryers from manufacturers with sustainable business practices. Recycled materials	Study hard at WWU, get good grade
Stop contracting with Aaramart (Aramark?)	More sustainable paper products (or less paper)	Make purchasing policy mandatory not optional	
Divest from carbon	Local food	Food gift cards	
Stop selling flavored water	Keep buying local	Purchase more local produce through farm to school	
Stop investing with oil companies/fossil fuels	More e-forms (to replace paper forms) such as purchasing form	Purchase more electronically powered hand dryers for bathrooms	
Divest from carbon	Advocating for banning plastic products	Encourage professors to use e-books vs actual paper books	
Turn purchasing paper forms into e-forms	Being conscious of buying sources	Encourage communal ownership whenever possible. Borrowing when needed makes more sense than outright ownership. Why shouldn't Western have it's own car share program? It would be practical and an opportunity for learning.	
Divest from carbon	So many types of pens; must be 10 in our office	Buy local	
Selling bottled water	Recycled paper	Reusing ziploc bags	
Paper purchasing form; convert to e-form	Recycled material in furniture	Any replacement purchase must be more energy efficient than the original item or else exemption is needed	
Stop charging so much for education; charging so much discourages people from attending	Local food like avenue bread	Buying recycled furniture	
Stop purchasing single-use plastics	Green cleaning products	Extreme clarity when it comes to product sourcing. We deserve to know where stuff comes from.	
Stop selling soda everywhere	Keep water refills	More locally sourced food; organic/ethical options in markets/commons	
Wasting water	Sourcing products from Keeney's more than Office Depot (communicate to departments)	Encourage departments to buy more sustainable furniture	
Stop selling inorganic, non-sustainable, non-compostable goods	Green products and policies	Taking ownership of what is sold on campus	
Stop using paper forms for reimbursements	Buying locally, sustainably, GMO-free, and organic (keep in mind seasons of fruits/veggies, more meat-free buying)	Encourage purchase of refillable pens/pencils/whiteboard erase; drastically reduces waste	
Divest fossil fuels and don't use Aramark	Composting food and plant material for fertilizer	All compostable cups on campus (that means you Starbucks)	
Using or leaving lights on in rooms that aren't being used	Buying local	Use recycled paper for printing on campus	
	Keep sourcing within state if possible as well as recycled products	Donating food to the homeless	
	Buying local foods	More updated furniture in older building	
	Purchasing local from Edaleen Dairy, Avenue Bread, Tony's, etc.	More local foods	
	Keep purchasing reusable and recycled materials	Support divestment	
	Buying local	Divest	
	Organic foods/local	Sell more sustainable water bottles (not only ones that say "Western"	

Purchasing

Stop	Keep Doing	Start	Misc
	Buying local and organic (non-GMO) foods	Divest	
	Buying from thrift stores or second hand	Divest	
	Buying more recycled products	Placing more composting and recycling bins in classrooms/around campus	
	Recyclable napkins	Purchase decomposable plastic	
	Investing in solar	Replace restaurant chains with local restaurants on campus	
	Green energy and not selling bottled water	More emphasis on purchasing recycled or recyclable supplies	
	Keep supporting farmers	Local restaurants replace chains in VU	
	Buy locally from farmers market and local stores	Working with business and marketing students to potentially start company in Whatcom/WA	
		Providing (free) food for students in need	
		Buy local first	
		Start supporting local farmers and farmers' rights	
		Start purchasing more renewable energy credits through GEF/SAF	
		Make it transparent where you're buying from and how their process is sustainable or at least enough info so it's researchable	
		Start selling and advertising reusable containers and cups on campus	
		Developing or finding metrics for purchasing sustainably and sustainable products	
		Possibly vote to levy a campus tax on junk food/food not locally/responsibly sourced to fund campus projects	
		Keep doors open to keep building cool	
		Source local; cut the Aramark domination	
		Source local	
		Minority-owned companies	
		Compost bins in all the dorms	
		Work with Domestic Fair Trade Association to support ethical companies	
		Using reusable bowls	

Stop	Keep Doing	Start	Miscellaneous
why is stop the biggest area at every table?	competitions between dorms with sustainable theme	more advertising for compost and recycling. more awarentess of importance	or clubs even ?
stop supporting food chains, think local	orgsync, saves paper	ban plastic bags and bottles on campus	could this be called student engagement
printing out unnecessary documents	service learning! be a community, bond, give back	no plastic bags	
students buying and selling of bottled water at school events	organic produce stand on campus, like pod	more electronic advertising	
students buying and selling of bottled water at school events	composting	ban plastic bags on campus	
orgsync	AS club hub is rocking!	advertise free events	
something more accessible than orgsync	heritage dinner	use mailchimp	
stop giving out bottled water	divestment campaign	reduce physical mail as much as possible	
unnecessary printing	cultural projects, student life support ESC	online newsletters are a big hit nowadays and there are awesome websites that let you customize section topics	
unnecessary printing	clubs and events all the time, always opportunities to do stuff	less food waste at restaurants and dining hall	
stop administrative backend paperwork and have more processes online, esign forms. registration, admissions, course transfer/evals, reduce paper files	partnering with LEAD for volunteering	more outreach for volunteering	
	green week	sustainability is an inclusive topic and should be integrated into all areas, including sports	
	wellness program to sustain employee retention	rollerblading club please	
	divestment campaign	head of each club would be required to meet once a year for club conference on how to make the most out of your club and expand	
	clubs	regulate aramark	
	intramurals, get to know people with common interests	kick out aramark. establish student run organizations to source with local companies for food (build student business abilities and local food sourcing)	
	eco reps	kick out aramark. establish student run organizations to source with local companies for food (build student business abilities and local food sourcing)	
	eco reps	kick out aramark. establish student run organizations to source with local companies for food (build student business abilities and local food sourcing)	
	open mic night	hand out less paper	
	open mic night	reduce papers handed out at student orientation	
	student clubs and initiatives, diversity	reduce papers handed out at student orientation	
	promoting recycling and composting! totally made me change my ways	make clubs more known	
	compost thing, but more often, dining hall stuff	make sustainability clubs more popular through information on campus and online	

Stop	Keep Doing	Start	Miscellaneous
	water bottle refill stations	engaging everyone on campus. it seems so student focused often forgetting about staff and faculty engagement. access to health center, rec center, alumni young professionals group and committees on campus, you are missing out on support	
	bottled water ban, codify into policy	go digital for newspaper or make an app	
	GEF	switch over to electronic books	
	educating students on simple living, outback	club fairs for clubs to be clubs at clubs	
	the schedules in the dining hall make it easy to know when events are	more events that seem more interesting	
	AS green	find a way to reduce energy consumption in dorms	
	AS green fee	grow food for dorms in outback	
	bring your own water bottle	csa boxes that are cheap and easy to find	
	sustainability focused living learning center	emphasize recycling and compost to students not from the area	
	green energy fee and fund	more water bottle fill up	
	putting recycle bins in rooms	more club fairs	
	heritage dinners from ESC	require all events on campus to be sustainable	
		credits for volunteers work at recycling center	
		create at home garden to supply basic vegetables	
		provide for secular meditation spaces. start a department for the study and use of psychedelics. what would unite students in love better than this? plus a fascinating area of study	
		waste management learning at summerstart or freshman orientation	
		think about your favorite day, say one good thing about yourself, say you're going to have the best day ever today	
		open the lower field more often	
		provide opportunities for students to learn about sustainability and how our choices impact sustainability	
		more activities and outreach for transfer students	
		find non paper solutions for advertising events	
		motivate students in residence halls to reduce energy use. have a competition to see who can use the least (water usage as well)	
		more outreach (hall council and such) advertise better for students living on campus	

Stop	Keep Doing	Start	Miscellaneous
		<p>more showcasing of student led change like the bottled water ban. more informative posters near drinking fountains</p>	
		<p>make student involvement less obtuse, easier to access</p>	
		<p>an intro class to being sustainable on and off campus</p>	
		<p>student led/run edible gardens instead of lawn and bark chips</p>	
		<p>outreach and more involvement and presence in the dorms</p>	
		<p>let the student body know about what's going on on campus</p>	
		<p>more informal internship type programs where students can get paid or credits for working at innovating things in the community</p>	
		<p>increased involvement in the outback</p>	
		<p>have a how to live sustainably segment at orientation</p>	
		<p>have a how to live sustainably segment at orientation</p>	
		<p>more volunteering events</p>	
		<p>use outback more efficiently and effectively</p>	
		<p>support student led initiatives to shape the identity of campus and campus spaces and life</p>	
		<p>encourage businesses on campus to not give bags with meals and food</p>	
		<p>recycling 101 at orientation and tips for sustainability on campus!</p>	
		<p>info out to students before they come to campus on living simple</p>	
		<p>more of the four part trash, compost, landfill, instead of just trash cans</p>	
		<p>more publicity for outback make it clear everybody can get involved</p>	
		<p>all residence halls get compost bins</p>	
		<p>mandatory student advising</p>	
		<p>remodeling dorms to be more energy efficient</p>	
		<p>bring them to the outback farm so newcomers can become familiar with the program</p>	
		<p>I know fairhaven has the free exchange table, but it would be awesome to do that ocampus wide to try and encourage sustainability of objects! not many people know about the tiny table in the fairhaven commons</p>	
		<p>consider speedy student orientation over temp to avoid crowding especially on rainy days</p>	

Stop	Keep Doing	Start	Miscellaneous
		gardening in more areas on campus	
		including sustainability in orientation, establishing a culture of consciousness in waste and opportunities	
		a more interdisciplinary approach to clubs	
		have food vendors (more than burritos) that are based in bellingham. ex: black drop coffee instead of starbucks	
		have places for donation of clothes, etc. for goodwill or similar areas	
		start a future studies club	
		make it easier for students to travel abroad, especially for transfer students	
		give environmental clubs a bigger presence	
		healthier food options and more diversity of food on campus. campus greenhouse	
		add all pubs and outreach materials to CEDAR, the institutional repository	
		use CEDAR to promote outreach materials and publishing	
		gender neutral housing arrangements	
		increase sustainability student club outreach in order to be visible to the students so more people are aware of the presence of the clubs and can join the clubs easily	
		faculty contribute to green energy fee and fund	
		more opportunities for staff and faculty to support student clubs and initiatives	

Transportation

Stop	Keep Doing	Start
more shuttles, less stops	bus passes	more zip cars
bus passes for students included	bus passes	more bike racks on south campus near fairhaven in the outback
bus stops with more coverage and lighting	bus passes and helping students in the office	bike exchange program
bus drivers ignoring me when they barely pull away from the stop	keep up the employee shuttle pass, haven't drive to work all year!	have parking rates pay for impacts
more south campus routes or bus for the 14 bus	buses and bus pass is great. love not having to worry about it	more access to outer areas of bham (lakeway)
reassess where bus stops are	bike light give-aways are great	more access to outer areas of bham (lakeway)
the busses are always full in the mornings at my bus stop so I never get to take the bus. Maybe add more shuttles that won't get as full	biking and bus pass	bike classes on commuting from outdoor center
unsustainable energy use	buses	install infrastructure for electric vehicles
reduce the amount of stops on the same streets/blocks	bus passes	bike path behind edens and old main
more sunday/evening shuttles	taking bus	shuttle to lakewood
bikes are often unsafe if left around campus, make sure bikes are safer	keep having bus passes, but also encourage different types of being courteous on the bus	more energy efficient buses
bikes are often unsafe if left around campus, make sure bikes are safer	new additional shuttle route	more bike security
making less stops would save fuel and take less time, especially in areas in Fairhaven	late night shuttle	hyperloop from vancouver to seattle
reducing amount of stops we make on routes. the 14 makes a stop approx every 100 yards on Harris St. Starting and stopping high fuel cost	funding the bus system/shuttles/passes	propose tiered parking prices, the closer you live to your workplace, the costlier the parking. this would promote commuting where it is accessible
night shuttle to York district, north of campus	bus passes are awesome	make the hybrid bus real
night shuttle to stop downtown	love the smart trips program and employee annual bus passes	put bus schedules in campus buildings to raise awareness of alternative transportation
restore South Hill bus service and make them run coinciding with class beginnings, encourage more employees to ride	expanding night shuttle operation, nice job keep it	create a permaculture based storm water control parking lot solution that includes the eel grass in bellingham bay/salish sea
have a cache of tools that so many trucks and vans drive back and forth from the physical plant every day	buses	infrastructure for electric vehicles
smaller or hybrid electric personnel vehicles	new late night shuttle route to south campus	bring the hybrid bus!
indoor bike storage	employee bus passes	bikes for use and reuse for all students on campus example is WSU
stop using old non sustainable buses or upgrade them	keep the late night shuttle	free bus passes for students and faculty and staff

Transportation

Stop	Keep Doing	Start
less loose bricks to make campus safe for skateboards	easy bus pass	green energy late night shuttle
driving if there is a bus for the route	keep student bus passes	support the vri
paving parking lots. Making more parking!	keep student bus passes	more incentives for not driving
make carpool permits easier to obtain	keep expanding wwu shuttle	uber to bellingham
smaller vehicles for jobs with smaller needs	supporting bike maintenance center at OC	encourage staff to bike to work
parking passes for less money please	friendly WTA drivers, helpful	more outreach, events like the bike lights
glass on the streets	universal bus pass for students and faculty, especially like the ease of payment through payroll deduction	electric car chargers. more covered bike storage
bussing/driving when in walking distance	bussing!	bike groups from neighborhoods to teach others about commuter biking
stop subsidizing faculty plane travel/and or start buying carbon offsets for air travel	commuter pack (for staff) I am so willing to forgo a parking permit knowing I have the commuter pack option	cover bike racks
stop having people drive when they live so close to campus	promote carpooling (staff)	more expensive parking
stop burning oil	thank you for heating the bus	wta buses at high frequency and sunday evenings
stop driving if in walking distance	keep late night shuttles	intercampus shuttle to reduce state vehicle use
driving	great work, thanks	business analysis of solutions by sustainable business students
free parking at lincoln	keep supporting input from students, faculty, etc.	initiatives for bicyclists and walkers, make it a priority
supporting oil	subsidized bus pass!	bike connector between edens and old main and indian
supporting oil	make riding the bus easy	start adding electric charging stations near academic buildings so departments can buy electric cars
cutting off north campus as a road at night	late night shuttle	tax subsidies for bus and bike riders. impractical? tax penalties for car owners. bellingham ride share app, maybe something like uber that makes it easier to catch a ride. bike and pedestrian lanes completely apart from roads, being around traffic sucks! subtle shaming of the car culture, especially luxury cars. encouraging ride share and hitch hiking! less traffic but also increased trust, confidence conversation with our fellow citizens
	late night shuttle is so useful and important, keep it up!	renting bikes like wsu
	frequent buses	rentable bikes for one whole year, money back when bike back
	adding bike lanes, make bike lane/parking laws more strict	bike renting stations like in large cities where you can take a bike and return it at any station

Transportation

Stop	Keep Doing	Start
	improving bike lanes	bike lanes on campus, sometimes bikers ride a little close
	promoting bike safety	rent a bike, being able to rent out bikes for a day
	promoting zip car as an alternative	subsidize shuttles for students to bellingham and seatac airports
	zip car through wwu	biking lanes on campus
		easier transportation to seatac
		easier to access bike racks near mathes to avoid clogging near doors and generally more dorm bike racks
		work with city of bellingham directly on bike safety and accessibility and to reduce individual drivers
		bike lanes on college way and through campus
		chairlift from waterfront to campus, solar powered? zip line down?
		more on time buses
		power the shuttle bus and campus vehicles with electricity or renewable low carbon fuels
		running buses later at night, i have to walk home after 7 (331) only comes once an hour
		try to make sure bus drivers actually stop for riders
		covered bike rack
		bike lanes on the roads so bikers don't get in the way of buses
		app for smart trips
		bike share like barcelona ride share like zip car
		walking
		subsidize shuttles to airport
		financial incentive for not buying a parking pass
		more electric powered transportation

Transportation

Stop	Keep Doing	Start
		alternative fuels
		address bike security
		more covered bike racks
		walking clubs and groups communities
		fleet of green vehicles
		fleet of green vehicles
		riding your bike! more bike rack accessibility
		green vehicles that can be checked out and rented by departments
		green vehicles that can be checked out and rented by departments
		sell impounded bikes whole or as parts
		high street in front of college hall is prime wait for pick up area. put a cover up so we don't get rained on
		more covered bike racks especially by the vu
		use energy before gas
		more places to park bikes on campus
		illuminate stop signs on college way
		an incentive for electric vehicles on campus
		more vibrant attractive walking paths
		pay attention to placement of bike racks (some not useable, too close)
		carpooling more, get to know neighbors
		more bike racks that are covered
		financial incentives for non car commuters

Transportation

Stop	Keep Doing	Start
		selling reusable water bottles
		legalize longboard with helmet
		no cars for first year students
		more indoor bike lockers
		bike lanes on campus
		bike zones on campus or bike rentals like in big cities
		student rep on wta board
		more info on which bus goes where. website is not user friendly
		student rep on wta board
		student rep on wta board
		address the theft on campus. cameras? bike locks in more visible areas
		address the theft on campus. cameras? bike locks in more visible areas
		more interactive, user-friendly website with more info on how to get around local area- other towns, hiking, san juans, ect-without a car. maybe leave a list of places and directions for each place with good google maps, prices, etc. maybe an app?
		more interactive, user-friendly website with more info on how to get around local area- other towns, hiking, san juans, ect-without a car. maybe leave a list of places and directions for each place with good google maps, prices, etc. maybe an app?
		commuter website for students to rideshare with other students
		bike share
		add more streetlights (if they could be solar powered?) somehow energy efficient?
		bike rentals
		work with wta to add buses to the schedule in keeping with student habits (add more at peak hours, reduce at non-peak hours)
		more awareness and electric buses and cars

Transportation

Keep Doing

Start

rollerblades for rent at the rec center

Stop	Keep Doing	Start	Miscellaneous
using paper towels in restrooms	providing bins for recycling and promoting recycling using the term landfill	in VU entrance area, compost is separate from other bins, leading to extra trash, move closer	future teachers! curriculum: what you make of it is what it is
allowing vendors on vendors row to use non compostable utensils	good recycling western	more recycle receptacles with more obvious labels	
construction waste	the refill water bottle station	encourage students to bring own utensils	
selling packaged foods on campus	hand dryers in bathrooms	paper towel composting or insert more hand dryers	
purchasing food with packaging that can't be recycled or composted	asking ideas from students	hand dryers all over campus	
throwing away paper towels in bathrooms	funding for zero waste western- awesome!	more hand dryers, less paper towels	
wasting my tuition on the environment	recycling	compost bins in dorms (every floor)	
selling food in the markets in individually wrapped packages	encouraging reusable cups and plates and utensils in non dining hall food areas	high aesthetic standard of recycling stations	
enabling a buy new then throw away culture (thinking of clothing) by subsidizing thrift store, or starting a new western thrift store	composting dining hall food scrap	more labelling, more compost bins around campus, red square	
selling as many products that are packaged with wasteful materials	cradle to cradle, keep using compostable utensils	compost in rec center	
buying bottled water	waste audits! composting!	use mixed use recycling	
stand alone bins	water refill stations	compost bins everywhere on campus	
sorting ineffectively	refill stations/water bottle ban	signage quality for recycling needs improved. should see number so I know where to recycle	
using non recyclable or compostable cups and food containers in on campus food sources	composting, recycling, and landfill shaming	cradle to cradle conversations	
selling products with so much packaging	recycling	remodel recycling bins on the ridge, they are always overflowing and recycling turns into litter	
disposable coffee cups	3-D recycling samples	more accesible compost bins, red square department compost bins	
allowing products that are not recycleable	seeking input from students	stickers to denote how to recycle on campus	
using non recycleable plastics	trayless	paper towel composting	
having paper towels	sort trash in red square, cool event	use reclaimed wood for building or art	
using disposable, non recycleable utensils at vendors row, food stores on campus, VU, Atrium	the refill stations are great	rec center needs composting	
placing trash cans everywhere	i fell in love with wvu because of their great recycling program. keep up the great work	composting paper towels	
sending compmost to north county	having alot of different ways to throw away and recycle	more recycled, reused things in our pac, LED houselights	
leaving an option to choose a non compostable wrapper at Zoe's	expanding composting on campus	educate students on how to recycle properly	
	waste audits on campus	more composting bins. love them. want them in more places	

Stop	Keep Doing	Start	Miscellaneous
	green approaches	scale up composting with on campus digesters	
	having highly assorted options for waste	add more water refill stations	
	good signage over recycling bins	add more compost bins	
	recycled art displays	more refill stations	
	being a shining beacon of possibility!	increasing food plus drop off points within campus buildings	
	thanks for having different trash cans for each purpose	educating students more	
	keep putting compost bins on campus	good compostable utensils that are sold and don't melt	
	adequate measures/chemical management for labs	add more areas to compost	
	education on how to properly dispose of waste	clearer signage on bins, I am easily confused	
	good recycling/waste in the biology building (good locations empties often)	dorm compost, food, and paper towel	
	continue educational outreach	update vacuums in BT	
	hand dryers and water tioletes	better fitted tubs for recycling behind BT	
	compost given to farm in fairhaven	compost in dorms. edens--honors, kids care!	
	compost bins in the ES building	composting in all residence halls	
	composting	every building has compost bins	
		biodigester	
		more composts please	
		more composting locations, especially in bathrooms and dorms. edens hall hallway dorms	
		advocate composting, recycling for property managers	
		refill mechanical pencils	
		provide paper recycle adjacent to all print stations	
		more bins for cardboard in the dorms	
		generate energy from underground bio processors	
		make compost more accessible, where food is not available	

Stop	Keep Doing	Start	Miscellaneous
		transparency of cost to students, \$90/ton to roosevelt vs green earth tech \$45/ton	
		put our organic waste into an aerobic digester to generate power or renewable fuel	
		better recycling organization around fairhaven	
		composting at the bottom of dorms (gamma)	
		cloth donation bin	
		more compostable options, less packaging	
		add more four part waste bins so we can sort/recycle/compost/landfill/ etc.	
		compost at dorms	
		more refill water stations	
		dual flush toilets and signs in all bathrooms	
		build compost facility for dining hall food waste	
		more compost bins in the classroom and around campus	
		provide more knowledge about composting both in and out of dorms. education is not equal in all dorms	
		compost in the dorms (ridge) especially because lots of students eat fruit and use napkins! maybe one compost in each building so students don't let it start to smell	
		get a wood chipper for on-site production of wood chips for landscaping and less haul away of materials- keep it in the loop!	
		encourage washable reusable dishware for food and drink. discourage through "sin tax" disposable containers	
		recycle bins in fraser	
		providing compost bins in on campus living	
		efforts to educate students to reduce landfill and that more landfill means more water that won't dispose	
		recycle stuff and resell the stuff for profit that can be used towards more sustainability efforts or for good cause, etc.	
		link purchasing standards to waste recoverability	
		better signage about what to recycle, how and why	
		more recepticals designed to indicate what goes in them, i.e circles for cans and bottles	
		make trash into art	

Stop	Keep Doing	Start	Miscellaneous
		more refill water stations around campus in carver, places where athletes/kin majors go	
		more composting and recycling around campus! anywhere where there's a trash can	
		having compost bins in residence halls (all, ridge)	
		more water bottle refill stations and compost bins	
		work with bio to have more simulated dissections so there is less formaldehyde	
		give vendors row sorting stations	
		better labeling on what can be recycled compost/ and now	
		donate food waste to local homeless	
		more composting, composting education what happens with compost currently	
		compost in dorms and dining hall, fairhaven	
		partner with outback to keep compost on campus	
		why not one up the bucket? center on composting toilets. how about an economical version	
		more stations in classrooms	
		compost in the dorms	
		biodigester	
		more compost and larger bins in more locations	
		install toilets to reduce toilet paper usage	
		compost paper towels in bathrooms so they can be re-recycled. clearly label trash/compost!	
		composting toilets	
		composting toilets	
		educating students to reduce first, not recycling	
		more compost access	
		installing more heat/air dryers in library, AH	
		start refusing products that are not recyclable	

Stop

Keep Doing
